Introduction

Applied Research at MMU is shaping the debate on criminal justice policy reform.

Through a series of research and consultancy projects the Policy Evaluation and Research Unit (PERU) at Manchester Metropolitan University is developing a new model of social justice and applying it to rethinking criminal justice policy and the reconfiguration of criminal justice services.

This work will be of interest to policy-makers, managers and professionals working in community safety and the criminal justice sector.

The programme has a number of distinct but related strands:

- Mapping national, regional and local crime trends
- Justice mapping
- Justice Reinvestment
- A new economic theory of criminal justice
- New commissioning models such as Payment by Results and Social Impact Bonds
- Social innovation in the criminal justice system

Statistical Data

In accordance with the Statistics and Registration Service Act 2007, statistics based on police recorded crime data have been assessed against the Code of Practice for Official Statistics and found not to meet the required standard for designation as National Statistics. The full assessment report can be found on the UK Statistics Authority website. Data from the Crime Survey for England and Wales continue to be badged as National Statistics.

Mapping national, regional and local crime trends of which this briefing is an output

This Local Authority profile contains trend data from a range of sources. The profile contains data on Crime, the Labour Market (inc. Job Seekers Allowance), Deprivation and Demographics. This profile will be developed over time to help explain the relationship between Crime and the Economy.

About the Policy Evaluation and Research Unit

The Policy Evaluation and Research Unit at Manchester Metropolitan University is a multi-disciplinary team of evaluators, economists, sociologists and criminologists. We specialise in evaluating policies, programmes and projects and advising national and local policy-makers on the development of evidence-informed policy. Currently, most of our work is in the areas of criminal justice, crime reduction, advice services, substance misuse and young people's services. We work for government departments including the Home Office and Ministry of Justice and local delivery organisations including police forces, probation services, local authorities and the voluntary sector.

Area Profile for Barnsley

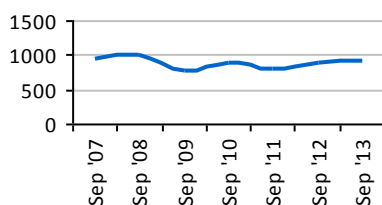

Crime Statistics and Trends

This section of the report examines the most recent police recorded crime data (Not designated as National Statistics) published by ONS. Data presented covers a rolling year up to the end of September 2012 and September 2013 respectively for each key crime group (which includes a re-classification of some elements of the police recorded crime data series and now excludes Fraud Offences). The table below includes annual change in the number and percentage of crimes. The rank is based upon the most recent Local Authority/Community Safety Partnership figure (out of 320 LAs/CSPs).

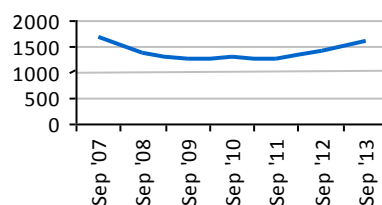

Offence	12 mths to		Change		Rates per 1000 pop.			Rank
	Sept-12	Sept-13	n	%	LA	Region	England	
Violence with injury	1,126	1,224	98	8.7	5.3	5.6	5.5	136
Violence without injury	462	521	59	12.8	2.3	3.9	5.2	295
Sexual offences	126	165	39	31.0	0.7	1.1	1.1	245
Robbery	79	105	26	32.9	0.5	0.7	1.1	133
Domestic burglary	899	937	38	4.2	9.3	12.0	9.7	104
Non-domestic burglary	1,426	1,615	189	13.3	7.0	5.9	4.1	13
Vehicle offences	1,510	1,892	382	25.3	8.2	7.8	6.9	73
Theft from the person	87	105	18	20.7	0.5	1.5	1.9	173
Bicycle theft	145	166	21	14.5	0.7	1.4	1.7	235
Shoplifting	1,425	1,572	147	10.3	6.8	6.7	5.6	79
All other theft offences	2,289	1,938	-351	-15.3	8.4	10.3	9.3	126
Criminal damage and arson	3,026	2,683	-343	-11.3	11.6	11.0	9.1	57
Drug offences	1,202	1,101	-101	-8.4	4.8	2.8	3.5	42
Possession of weapons offences	98	86	-12	-12.2	0.4	0.3	0.4	101
Public order offences	405	372	-33	-8.1	1.6	2.0	2.2	189
Miscellaneous crimes against society	113	149	36	31.9	0.6	0.9	0.7	159
	14,418	14,631	213	1.5

Demographics and Deprivation

This section of the report examines demographic data from the Office for National Statistics (ONS) including Population and Ethnicity data, and Deprivation Data from Department for Communities and Local Government (DCLG).

Population (2012 mid-year estimate)

The table below illustrates total population, Working Aged (16-64) population and Young People (18-24) population. The population pyramid to the right illustrates male and female population by quinary age groups.

Population Age Group	Numbers
Aged 16 - 64	148,600
Aged 18 - 24	19,300
Total	233,700

Ethnicity (2011 Census)

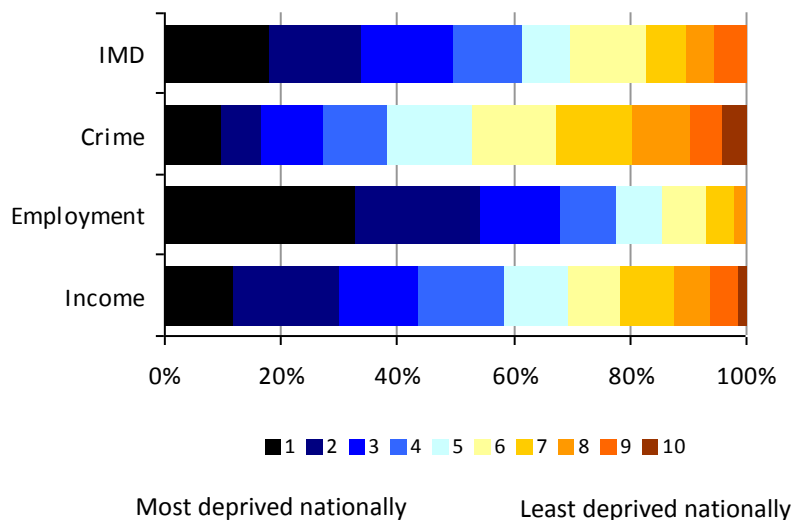

The table below shows Ethnicity data for key ethnic groups, including the numbers of people for each group and the proportion of total population, expressed as a percentage.

Ethnicity Group	Numbers ('000)	Percent
Total	231.2	100.0
White	222.2	96.1
White Irish	0.6	0.2
White Other	3.6	1.5
Mixed	1.6	0.7
Asian	1.7	0.7
Black	1.2	0.5
Other	0.4	0.2

Deprivation

The bar graph to the right demonstrates for overall Indices of Multiple Deprivation (IMD), and the Income, Employment and Crime Domains, the proportion of Lower Super Output Areas (LSOA) which fall into each decile (10%) nationally.

Source: DCLG

Labour Market Trends

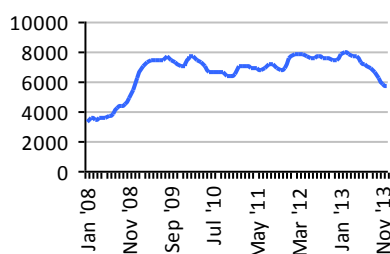

This section of the report examines the most recent Labour Market data from DWP (accessed via NOMIS) by Local Authority. Data presented compares December 2012 and December 2013 for the number of Job Seekers Allowance (JSA) claimants, the numbers claiming JSA aged 18-24 (a measure of Youth unemployment) and the numbers claiming JSA for over 6 months (a measure of long term unemployment) and the numbers claiming JSA for over 12 months. The table below illustrates the annual change in the number and percentage of claimants, the rate per 100 people (working aged) and compares the percentage point change. The rank is based upon the most recent Local Authority Rate/Community Safety Partnership figure (out of 320 LAs/CSPs).

Change

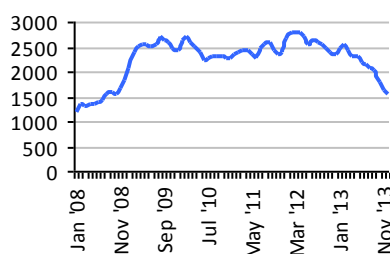

Job Seekers Allowance Type	Dec12	Dec13	n	%	Dec 12 Rate	Dec13 Rate	PP* Change	Rank
JSA	7,479	5,701	-1778	-31.2	5.0	3.8	-1.2	45
Long Term JSA (Over 12 mths)	2,190	2,025	-165	-8.1	1.5	1.4	-0.1	30
Long Term JSA (Over 6 mths)	3,510	2,905	-605	-20.8	2.4	2.0	-0.4	33
Youth JSA (18-24)	2,370	1,545	-825	-53.4	12.3	8.0	-4.3	31

Introduction

Applied Research at MMU is shaping the debate on criminal justice policy reform.

Through a series of research and consultancy projects the Policy Evaluation and Research Unit (PERU) at Manchester Metropolitan University is developing a new model of social justice and applying it to rethinking criminal justice policy and the reconfiguration of criminal justice services.

This work will be of interest to policy-makers, managers and professionals working in community safety and the criminal justice sector.

The programme has a number of distinct but related strands:

- Mapping national, regional and local crime trends
- Justice mapping
- Justice Reinvestment
- A new economic theory of criminal justice
- New commissioning models such as Payment by Results and Social Impact Bonds
- Social innovation in the criminal justice system

Statistical Data

In accordance with the Statistics and Registration Service Act 2007, statistics based on police recorded crime data have been assessed against the Code of Practice for Official Statistics and found not to meet the required standard for designation as National Statistics. The full assessment report can be found on the UK Statistics Authority website. Data from the Crime Survey for England and Wales continue to be badged as National Statistics.

Mapping national, regional and local crime trends of which this briefing is an output

This Local Authority profile contains trend data from a range of sources. The profile contains data on Crime, the Labour Market (inc. Job Seekers Allowance), Deprivation and Demographics. This profile will be developed over time to help explain the relationship between Crime and the Economy.

About the Policy Evaluation and Research Unit

The Policy Evaluation and Research Unit at Manchester Metropolitan University is a multi-disciplinary team of evaluators, economists, sociologists and criminologists. We specialise in evaluating policies, programmes and projects and advising national and local policy-makers on the development of evidence-informed policy. Currently, most of our work is in the areas of criminal justice, crime reduction, advice services, substance misuse and young people's services. We work for government departments including the Home Office and Ministry of Justice and local delivery organisations including police forces, probation services, local authorities and the voluntary sector.

Area Profile for Sheffield

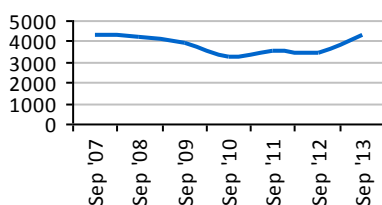

Crime Statistics and Trends

This section of the report examines the most recent police recorded crime data (Not designated as National Statistics) published by ONS. Data presented covers a rolling year up to the end of September 2012 and September 2013 respectively for each key crime group (which includes a re-classification of some elements of the police recorded crime data series and now excludes Fraud Offences). The table below includes annual change in the number and percentage of crimes. The rank is based upon the most recent Local Authority/Community Safety Partnership figure (out of 320 LAs/CSPs).

Demographics and Deprivation

This section of the report examines demographic data from the Office for National Statistics (ONS) including Population and Ethnicity data, and Deprivation Data from Department for Communities and Local Government (DCLG).

Population (2012 mid-year estimate)

The table below illustrates total population, Working Aged (16-64) population and Young People (18-24) population. The population pyramid to the right illustrates male and female population by quinary age groups.

Population Age Group	Numbers
Aged 16 - 64	367,300
Aged 18 - 24	81,300
Total	557,400

Ethnicity (2011 Census)

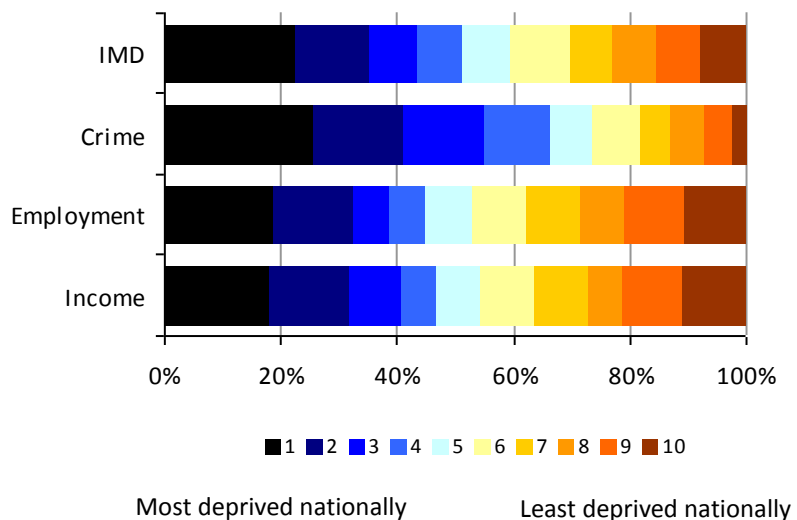

The table below shows Ethnicity data for key ethnic groups, including the numbers of people for each group and the proportion of total population, expressed as a percentage.

Ethnicity Group	Numbers ('000)	Percent
Total	552.7	100.0
White	446.8	80.8
White Irish	2.9	0.5
White Other	12.8	2.3
Mixed	13.3	2.4
Asian	44.4	8.0
Black	20.1	3.6
Other	12.4	2.2

Deprivation

The bar graph to the right demonstrates for overall Indices of Multiple Deprivation (IMD), and the Income, Employment and Crime Domains, the proportion of Lower Super Output Areas (LSOA) which fall into each decile (10%) nationally.

Source: DCLG

Labour Market Trends

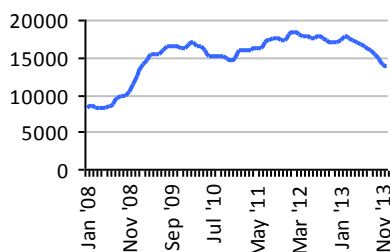

This section of the report examines the most recent Labour Market data from DWP (accessed via NOMIS) by Local Authority. Data presented compares December 2012 and December 2013 for the number of Job Seekers Allowance (JSA) claimants, the numbers claiming JSA aged 18-24 (a measure of Youth unemployment) and the numbers claiming JSA for over 6 months (a measure of long term unemployment) and the numbers claiming JSA for over 12 months. The table below illustrates the annual change in the number and percentage of claimants, the rate per 100 people (working aged) and compares the percentage point change. The rank is based upon the most recent Local Authority Rate/Community Safety Partnership figure (out of 320 LAs/CSPs).

Change

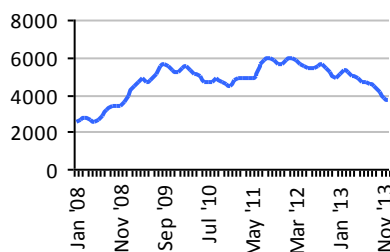

Job Seekers Allowance Type	Dec12	Dec13	n	%	Dec 12 Rate	Dec13 Rate	PP* Change	Rank
JSA	16,958	13,935	-3023	-21.7	4.6	3.8	-0.8	47
Long Term JSA (Over 12 mths)	5,380	4,895	-485	-9.9	1.5	1.3	-0.1	36
Long Term JSA (Over 6 mths)	8,185	7,030	-1155	-16.4	2.2	1.9	-0.3	39
Youth JSA (18-24)	4,955	3,730	-1225	-32.8	6.1	4.6	-1.5	133

Crime and Criminal Justice Futures: Local Authority Crime Profile

**January 2014
(data to
September
2013)**

Introduction

Applied Research at MMU is shaping the debate on criminal justice policy reform.

Through a series of research and consultancy projects the Policy Evaluation and Research Unit (PERU) at Manchester Metropolitan University is developing a new model of social justice and applying it to rethinking criminal justice policy and the reconfiguration of criminal justice services.

This work will be of interest to policy-makers, managers and professionals working in community safety and the criminal justice sector.

The programme has a number of distinct but related strands:

- Mapping national, regional and local crime trends
- Justice mapping
- Justice Reinvestment
- A new economic theory of criminal justice
- New commissioning models such as Payment by Results and Social Impact Bonds
- Social innovation in the criminal justice system

Statistical Data

In accordance with the Statistics and Registration Service Act 2007, statistics based on police recorded crime data have been assessed against the Code of Practice for Official Statistics and found not to meet the required standard for designation as National Statistics. The full assessment report can be found on the UK Statistics Authority website. Data from the Crime Survey for England and Wales continue to be badged as National Statistics.

Mapping national, regional and local crime trends of which this briefing is an output

This Local Authority profile contains trend data from a range of sources. The profile contains data on Crime, the Labour Market (inc. Job Seekers Allowance), Deprivation and Demographics. This profile will be developed over time to help explain the relationship between Crime and the Economy.

About the Policy Evaluation and Research Unit

The Policy Evaluation and Research Unit at Manchester Metropolitan University is a multi-disciplinary team of evaluators, economists, sociologists and criminologists. We specialise in evaluating policies, programmes and projects and advising national and local policy-makers on the development of evidence-informed policy. Currently, most of our work is in the areas of criminal justice, crime reduction, advice services, substance misuse and young people's services. We work for government departments including the Home Office and Ministry of Justice and local delivery organisations including police forces, probation services, local authorities and the voluntary sector.

This section of the report examines demographic data from the Office for National Statistics (ONS) including Population and Ethnicity data, and Deprivation Data from Department for Communities and Local Government (DCLG).

Population (2012 mid-year estimate)

The table below illustrates total population, Working Aged (16-64) population and Young People (18-24) population. The population pyramid to the right illustrates male and female population by quinary age groups.

Population Age Group	Numbers
Aged 16 - 64	271,500
Aged 18 - 24	40,400
Total	425,500

Ethnicity (2011 Census)

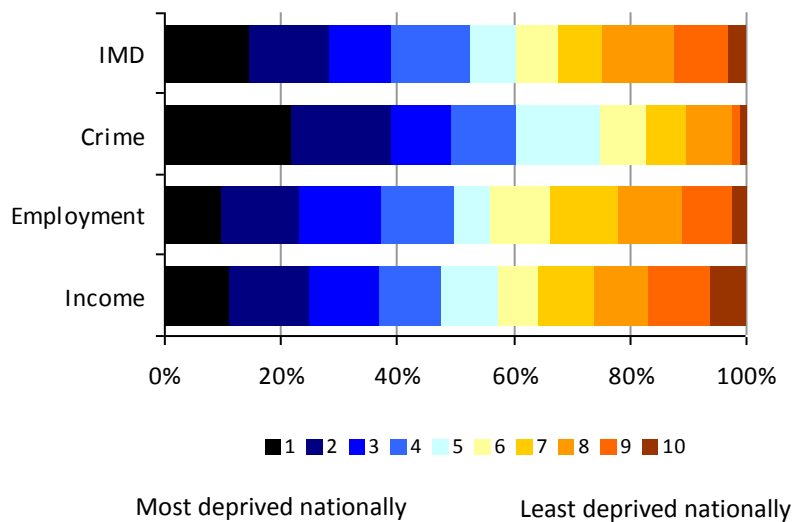

The table below shows Ethnicity data for key ethnic groups, including the numbers of people for each group and the proportion of total population, expressed as a percentage.

Ethnicity Group	Numbers ('000)	Percent
Total	422.5	100.0
White	323.9	76.7
White Irish	2.6	0.6
White Other	7.7	1.8
Mixed	9.8	2.3
Asian	67.8	16.0
Black	7.9	1.9
Other	2.7	0.6

Deprivation

The bar graph to the right demonstrates for overall Indices of Multiple Deprivation (IMD), and the Income, Employment and Crime Domains, the proportion of Lower Super Output Areas (LSOA) which fall into each decile (10%) nationally.

Source: DCLG

Labour Market Trends

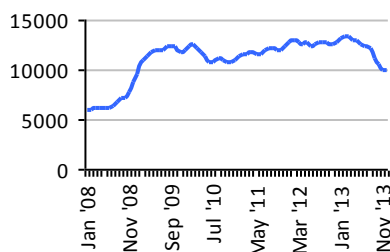

This section of the report examines the most recent Labour Market data from DWP (accessed via NOMIS) by Local Authority. Data presented compares December 2012 and December 2013 for the number of Job Seekers Allowance (JSA) claimants, the numbers claiming JSA aged 18-24 (a measure of Youth unemployment) and the numbers claiming JSA for over 6 months (a measure of long term unemployment) and the numbers claiming JSA for over 12 months. The table below illustrates the annual change in the number and percentage of claimants, the rate per 100 people (working aged) and compares the percentage point change. The rank is based upon the most recent Local Authority Rate/Community Safety Partnership figure (out of 320 LAs/CSPs).

Change

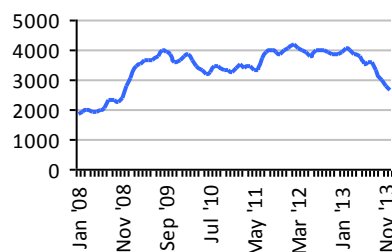

Job Seekers Allowance Type	Dec12	Dec13	n	%	Dec 12 Rate	Dec13 Rate	PP* Change	Rank
JSA	12,726	9,911	-2815	-28.4	4.7	3.7	-1.0	57
Long Term JSA (Over 12 mths)	3,365	3,245	-120	-3.7	1.2	1.2	0.0	51
Long Term JSA (Over 6 mths)	5,325	4,810	-515	-10.7	2.0	1.8	-0.2	50
Youth JSA (18-24)	3,840	2,680	-1160	-43.3	9.5	6.6	-2.9	58

*PP = Percentage Point Change

Introduction

Applied Research at MMU is shaping the debate on criminal justice policy reform.

Through a series of research and consultancy projects the Policy Evaluation and Research Unit (PERU) at Manchester Metropolitan University is developing a new model of social justice and applying it to rethinking criminal justice policy and the reconfiguration of criminal justice services.

This work will be of interest to policy-makers, managers and professionals working in community safety and the criminal justice sector.

The programme has a number of distinct but related strands:

- Mapping national, regional and local crime trends
- Justice mapping
- Justice Reinvestment
- A new economic theory of criminal justice
- New commissioning models such as Payment by Results and Social Impact Bonds
- Social innovation in the criminal justice system

Statistical Data

In accordance with the Statistics and Registration Service Act 2007, statistics based on police recorded crime data have been assessed against the Code of Practice for Official Statistics and found not to meet the required standard for designation as National Statistics. The full assessment report can be found on the UK Statistics Authority website. Data from the Crime Survey for England and Wales continue to be badged as National Statistics.

Mapping national, regional and local crime trends of which this briefing is an output

This Local Authority profile contains trend data from a range of sources. The profile contains data on Crime, the Labour Market (inc. Job Seekers Allowance), Deprivation and Demographics. This profile will be developed over time to help explain the relationship between Crime and the Economy.

About the Policy Evaluation and Research Unit

The Policy Evaluation and Research Unit at Manchester Metropolitan University is a multi-disciplinary team of evaluators, economists, sociologists and criminologists. We specialise in evaluating policies, programmes and projects and advising national and local policy-makers on the development of evidence-informed policy. Currently, most of our work is in the areas of criminal justice, crime reduction, advice services, substance misuse and young people's services. We work for government departments including the Home Office and Ministry of Justice and local delivery organisations including police forces, probation services, local authorities and the voluntary sector.

Area Profile for Leeds

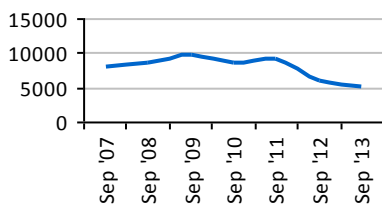

Crime Statistics and Trends

This section of the report examines the most recent police recorded crime data (Not designated as National Statistics) published by ONS. Data presented covers a rolling year up to the end of September 2012 and September 2013 respectively for each key crime group (which includes a re-classification of some elements of the police recorded crime data series and now excludes Fraud Offences). The table below includes annual change in the number and percentage of crimes. The rank is based upon the most recent Local Authority/Community Safety Partnership figure (out of 320 LAs/CSPs).

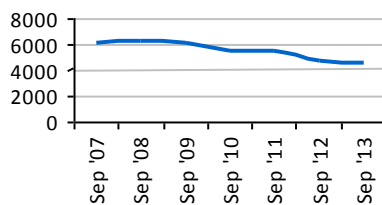

Offence	12 mths to		Change		Rates per 1000 pop.			Rank
	Sept-12	Sept-13	n	%	LA	Region	England	
Violence with injury	4,381	4,190	-191	-4.4	5.6	5.6	5.5	124
Violence without injury	3,519	3,569	50	1.4	4.7	3.9	5.2	145
Sexual offences	606	1,038	432	71.3	1.4	1.1	1.1	46

Demographics and Deprivation

This section of the report examines demographic data from the Office for National Statistics (ONS) including Population and Ethnicity data, and Deprivation Data from Department for Communities and Local Government (DCLG).

Population (2012 mid-year estimate)

The table below illustrates total population, Working Aged (16-64) population and Young People (18-24) population. The population pyramid to the right illustrates male and female population by quinary age groups.

Population Age Group	Numbers
Aged 16 - 64	171,600
Aged 18 - 24	31,800
Total	257,200

Ethnicity (2011 Census)

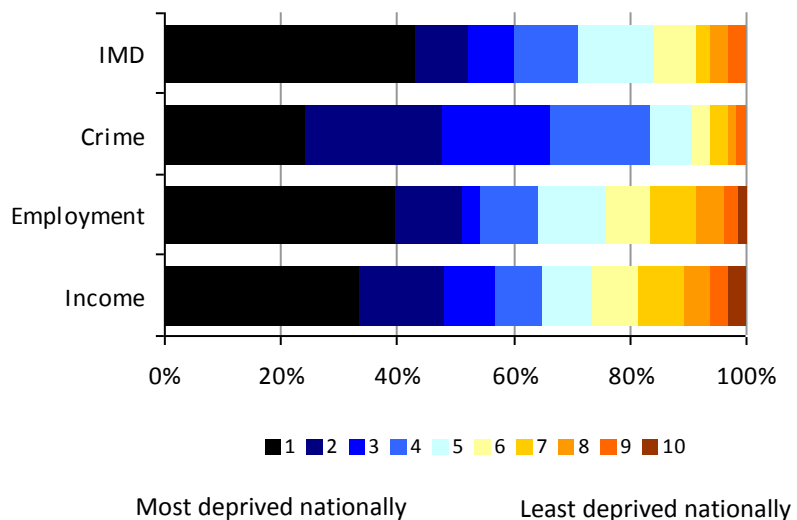

The table below shows Ethnicity data for key ethnic groups, including the numbers of people for each group and the proportion of total population, expressed as a percentage.

Ethnicity Group	Numbers ('000)	Percent
Total	256.4	100.0
White	229.9	89.7
White Irish	0.6	0.2
White Other	10.9	4.2
Mixed	3.5	1.3
Asian	6.5	2.5
Black	3.0	1.2
Other	2.2	0.8

Deprivation

The bar graph to the right demonstrates for overall Indices of Multiple Deprivation (IMD), and the Income, Employment and Crime Domains, the proportion of Lower Super Output Areas (LSOA) which fall into each decile (10%) nationally.

Crime and Criminal Justice Futures: Local Authority Crime Profile

**January 2014
(data to
September
2013)**

Introduction

Applied Research at MMU is shaping the debate on criminal justice policy reform.

Through a series of research and consultancy projects the Policy Evaluation and Research Unit (PERU) at Manchester Metropolitan University is developing a new model of social justice and applying it to rethinking criminal justice policy and the reconfiguration of criminal justice services.

This work will be of interest to policy-makers, managers and professionals working in community safety and the criminal justice sector.

The programme has a number of distinct but related strands:

- Mapping national, regional and local crime trends
- Justice mapping
- Justice Reinvestment
- A new economic theory of criminal justice
- New commissioning models such as Payment by Results and Social Impact Bonds
- Social innovation in the criminal justice system

Statistical Data

In accordance with the Statistics and Registration Service Act 2007, statistics based on police recorded crime data have been assessed against the Code of Practice for Official Statistics and found not to meet the required standard for designation as National Statistics. The full assessment report can be found on the UK Statistics Authority website. Data from the Crime Survey for England and Wales continue to be badged as National Statistics.

Mapping national, regional and local crime trends of which this briefing is an output

This Local Authority profile contains trend data from a range of sources. The profile contains data on Crime, the Labour Market (inc. Job Seekers Allowance), Deprivation and Demographics. This profile will be developed over time to help explain the relationship between Crime and the Economy.

About the Policy Evaluation and Research Unit

The Policy Evaluation and Research Unit at Manchester Metropolitan University is a multi-disciplinary team of evaluators, economists, sociologists and criminologists. We specialise in evaluating policies, programmes and projects and advising national and local policy-makers on the development of evidence-informed policy. Currently, most of our work is in the areas of criminal justice, crime reduction, advice services, substance misuse and young people's services. We work for government departments including the Home Office and Ministry of Justice and local delivery organisations including police forces, probation services, local authorities and the voluntary sector.

Crime Statistics and Trends

This section of the report examines the most recent police recorded crime data (Not designated as National Statistics) published by ONS. Data presented covers a rolling year up to the end of September 2012 and September 2013 respectively for each key crime group (which includes a re-classification of some elements of the police recorded crime data series and now excludes Fraud Offences). The table below includes annual change in the number and percentage of crimes. The rank is based upon the most recent Local Authority/Community Safety Partnership figure (out of 320 LAs/CSPs).

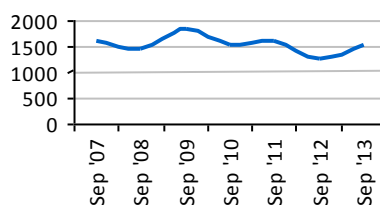

Offence	12 mths to		Change		Rates per 1000 pop.			Rank
	Sept-12	Sept-13	n	%	LA	Region	England	
Violence with injury	1,624	1,493	-131	-8.1	4.5	5.6	5.5	183
Violence without injury	981	1,101	120	12.2	3.3	3.9	5.2	234
Sexual offences	298	300	2	0.7	0.9	1.1	1.1	177
Robbery	43	54	11	25.6	0.2	0.7	1.1	249
Domestic burglary	644	735	91	14.1	5.1	12.0	9.7	215
Non-domestic burglary	1,278	1,547	269	21.0	4.6	5.9	4.1	85
Vehicle offences	1,013	935	-78	-7.7	2.8	7.8	6.9	301
Theft from the person	110	89	-21	-19.1	0.3	1.5	1.9	269
Bicycle theft	370	346	-24	-6.5	1.0	1.4	1.7	173
Shoplifting	1,166	1,282	116	9.9	3.8	6.7	5.6	206
All other theft offences	2,282	2,151	-131	-5.7	6.4	10.3	9.3	236
Criminal damage and arson	2,647	2,446	-201	-7.6	7.3	11.0	9.1	207
Drug offences	719	597	-122	-17.0	1.8	2.8	3.5	258
Possession of weapons offences	58	57	-1	-1.7	0.2	0.3	0.4	255
Public order offences	770	556	-214	-27.8	1.7	2.0	2.2	178
Miscellaneous crimes against society	174	192	18	10.3	0.6	0.9	0.7	192
	14,177	13,881	-296	-2.1

Demographics and Deprivation

This section of the report examines demographic data from the Office for National Statistics (ONS) including Population and Ethnicity data, and Deprivation Data from Department for Communities and Local Government (DCLG).

Population (2012 mid-year estimate)

The table below illustrates total population, Working Aged (16-64) population and Young People (18-24) population. The population pyramid to the right illustrates male and female population by quinary age groups.

Population Age Group	Numbers
Aged 16 - 64	204,400
Aged 18 - 24	24,100
Total	335,900

Ethnicity (2011 Census)

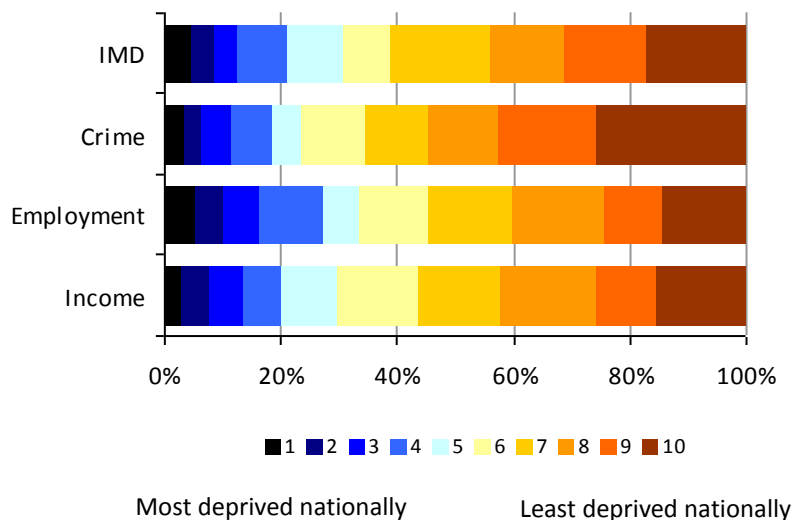

The table below shows Ethnicity data for key ethnic groups, including the numbers of people for each group and the proportion of total population, expressed as a percentage.

Ethnicity Group	Numbers ('000)	Percent
Total	334.2	100.0
White	321.3	96.1
White Irish	0.9	0.3
White Other	5.6	1.7
Mixed	2.3	0.7
Asian	3.0	0.9
Black	0.6	0.2
Other	0.5	0.2

Deprivation

The bar graph to the right demonstrates for overall Indices of Multiple Deprivation (IMD), and the Income, Employment and Crime Domains, the proportion of Lower Super Output Areas (LSOA) which fall into each decile (10%) nationally.

Source: DCLG

Labour Market Trends

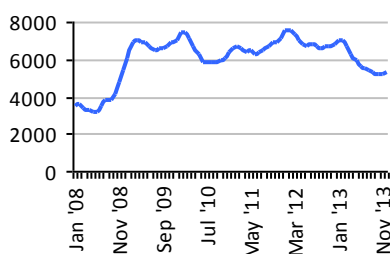

This section of the report examines the most recent Labour Market data from DWP (accessed via NOMIS) by Local Authority. Data presented compares December 2012 and December 2013 for the number of Job Seekers Allowance (JSA) claimants, the numbers claiming JSA aged 18-24 (a measure of Youth unemployment) and the numbers claiming JSA for over 6 months (a measure of long term unemployment) and the numbers claiming JSA for over 12 months. The table below illustrates the annual change in the number and percentage of claimants, the rate per 100 people (working aged) and compares the percentage point change. The rank is based upon the most recent Local Authority Rate/Community Safety Partnership figure (out of 320 LAs/CSPs).

Change

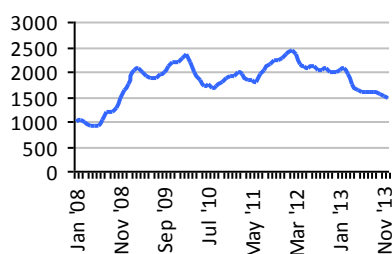

Job Seekers Allowance Type	Dec12	Dec13	n	%	Dec 12 Rate	Dec13 Rate	PP* Change	Rank
JSA	6,830	5,288	-1542	-29.2	3.3	2.6	-0.8	120
Long Term JSA (Over 12 mths)	1,990	1,600	-390	-24.4	1.0	0.8	-0.2	114
Long Term JSA (Over 6 mths)	2,930	2,180	-750	-34.4	1.4	1.1	-0.4	130

Demographics and Deprivation

This section of the report examines demographic data from the Office for National Statistics (ONS) including Population and Ethnicity data, and Deprivation Data from Department for Communities and Local Government (DCLG).

Population (2012 mid-year estimate)

The table below illustrates total population, Working Aged (16-64) population and Young People (18-24) population. The population pyramid to the right illustrates male and female population by quinary age groups.

Population Age Group	Numbers
Aged 16 - 64	133,200
Aged 18 - 24	28,400
Total	200,000

Ethnicity (2011 Census)

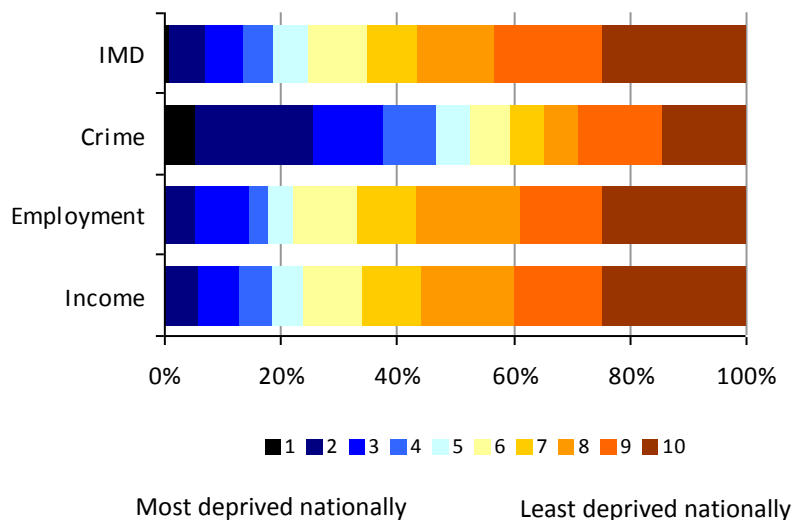

The table below shows Ethnicity data for key ethnic groups, including the numbers of people for each group and the proportion of total population, expressed as a percentage.

Ethnicity Group	Numbers ('000)	Percent
Total	198.1	100.0
White	178.6	90.2
White Irish	1.1	0.6
White Other	7.0	3.5
Mixed	2.4	1.2
Asian	6.7	3.4
Black	1.2	0.6
Other	1.0	0.5

Deprivation

The bar graph to the right demonstrates for overall Indices of Multiple Deprivation (IMD), and the Income, Employment and Crime Domains, the proportion of Lower Super Output Areas (LSOA) which fall into each decile (10%) nationally.

Source: DCLG

Labour Market Trends

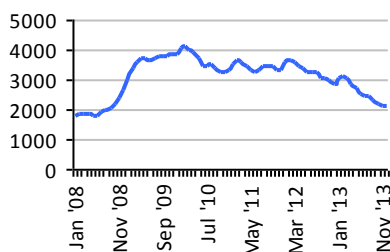

This section of the report examines the most recent Labour Market data from DWP (accessed via NOMIS) by Local Authority. Data presented compares December 2012 and December 2013 for the number of Job Seekers Allowance (JSA) claimants, the numbers claiming JSA aged 18-24 (a measure of Youth unemployment) and the numbers claiming JSA for over 6 months (a measure of long term unemployment) and the numbers claiming JSA for over 12 months. The table below illustrates the annual change in the number and percentage of claimants, the rate per 100 people (working aged) and compares the percentage point change. The rank is based upon the most recent Local Authority Rate/Community Safety Partnership figure (out of 320 LAs/CSPs).

Change

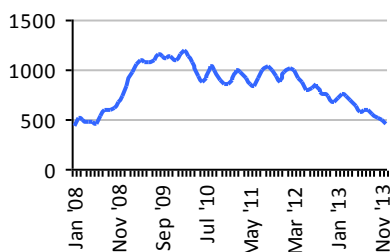

Job Seekers Allowance Type	Dec12	Dec13	n	%	Dec 12 Rate	Dec13 Rate	PP* Change	Rank
JSA	2,850	2,127	-723	-34	2.1	1.6	-0.5	222
Long Term JSA (Over 12 mths)	690	530	-160	-30.2	0.5	0.4	-0.1	219
Long Term JSA (Over 6 mths)	1,030	790	-240	-30.4	0.8	0.6	-0.2	223
Youth JSA (18-24)	685	465	-220	-47.3	2.4	1.6	-0.8	297

*PP = Percentage Point Change

Introduction

Applied Research at MMU is shaping the debate on criminal justice policy reform.

Through a series of research and consultancy projects the Policy Evaluation and Research Unit (PERU) at Manchester Metropolitan University is developing a new model of social justice and applying it to rethinking criminal justice policy and the reconfiguration of criminal justice services.

This work will be of interest to policy-makers, managers and professionals working in community safety and the criminal justice sector.

The programme has a number of distinct but related strands:

- Mapping national, regional and local crime trends
- Justice mapping
- Justice Reinvestment
- A new economic theory of criminal justice
- New commissioning models such as Payment by Results and Social Impact Bonds
- Social innovation in the criminal justice system

Statistical Data

In accordance with the Statistics and Registration Service Act 2007, statistics based on police recorded crime data have been assessed against the Code of Practice for Official Statistics and found not to meet the required standard for designation as National Statistics. The full assessment report can be found on the UK Statistics Authority website. Data from the Crime Survey for England and Wales continue to be badged as National Statistics.

Mapping national, regional and local crime trends of which this briefing is an output

This Local Authority profile contains trend data from a range of sources. The profile contains data on Crime, the Labour Market (inc. Job Seekers Allowance), Deprivation and Demographics. This profile will be developed over time to help explain the relationship between Crime and the Economy.

About the Policy Evaluation and Research Unit

The Policy Evaluation and Research Unit at Manchester Metropolitan University is a multi-disciplinary team of evaluators, economists, sociologists and criminologists. We specialise in evaluating policies, programmes and projects and advising national and local policy-makers on the development of evidence-informed policy. Currently, most of our work is in the areas of criminal justice, crime reduction, advice services, substance misuse and young people's services. We work for government departments including the Home Office and Ministry of Justice and local delivery organisations including police forces, probation services, local authorities and the voluntary sector.

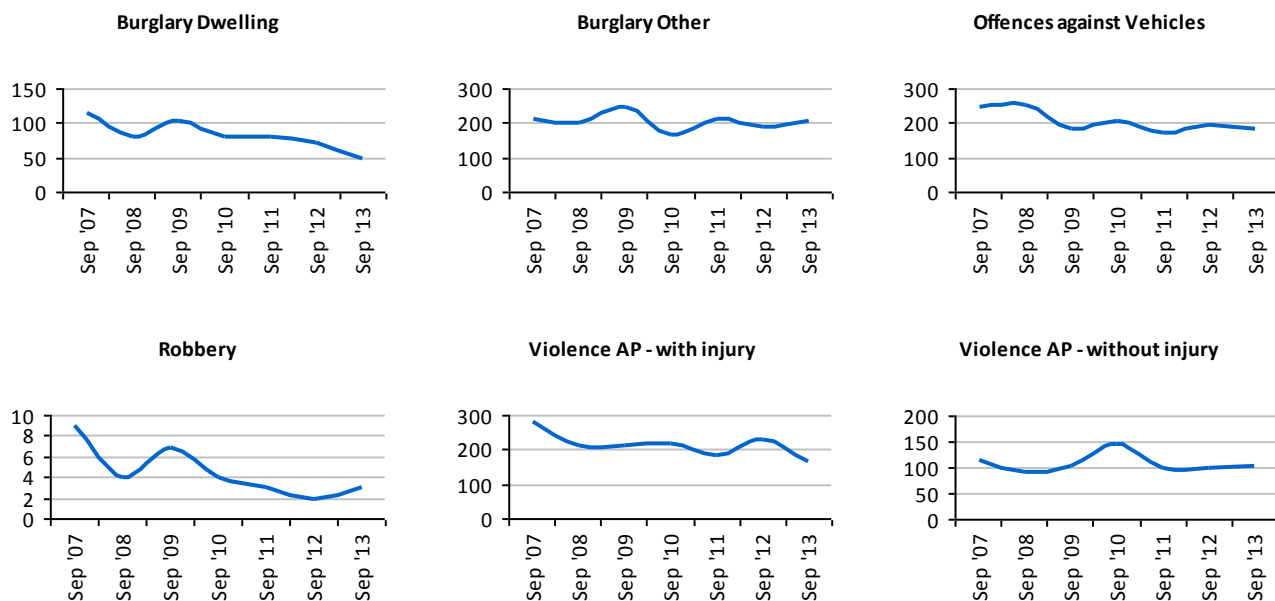

Area Profile for Craven

Crime Statistics and Trends

This section of the report examines the most recent police recorded crime data (Not designated as National Statistics) published by ONS. Data presented covers a rolling year up to the end of September 2012 and September 2013 respectively for each key crime group (which includes a re-classification of some elements of the police recorded crime data series and now excludes Fraud Offences). The table below includes annual change in the number and percentage of crimes. The rank is based upon the most recent Local Authority/Community Safety Partnership figure (out of 320 LAs/CSPs).

Offence	12 mths to		Change		Rates per 1000 pop.			Rank

Labour Market Trends

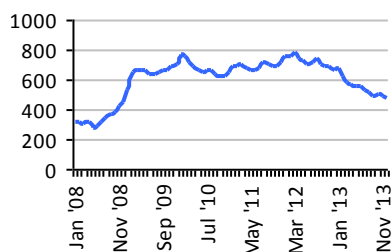

This section of the report examines the most recent Labour Market data from DWP (accessed via NOMIS) by Local Authority. Data presented compares December 2012 and December 2013 for the number of Job Seekers Allowance (JSA) claimants, the numbers claiming JSA aged 18-24 (a measure of Youth unemployment) and the numbers claiming JSA for over 6 months (a measure of long term unemployment) and the numbers claiming JSA for over 12 months. The table below illustrates the annual change in the number and percentage of claimants, the rate per 100 people (working aged) and compares the percentage point change. The rank is based upon the most recent Local Authority Rate/Community Safety Partnership figure (out of 320 LAs/CSPs).

Change

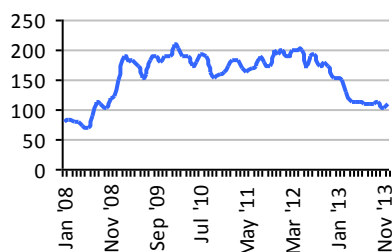

Job Seekers Allowance Type	Dec12	Dec13	n	%	Dec 12 Rate	Dec13 Rate	PP* Change	Rank
JSA	1,524	993	-531	-53.5	1.6	1.0	-0.5	294
Long Term JSA (Over 12 mths)	330	210	-120	-57.1	0.3	0.2	-0.1	293
Long Term JSA (Over 6 mths)	485	320	-165	-51.6	0.5	0.3	-0.2	297
Youth JSA (18-24)	265	140	-125	-89.3	2.6	1.4	-1.2	310

*PP = Percentage Point Change

Introduction

Applied Research at MMU is shaping the debate on criminal justice policy reform.

Through a series of research and consultancy projects the Policy Evaluation and Research Unit (PERU) at Manchester Metropolitan University is developing a new model of social justice and applying it to rethinking criminal justice policy and the reconfiguration of criminal justice services.

This work will be of interest to policy-makers, managers and professionals working in community safety and the criminal justice sector.

The programme has a number of distinct but related strands:

- Mapping national, regional and local crime trends
- Justice mapping
- Justice Reinvestment
- A new economic theory of criminal justice
- New commissioning models such as Payment by Results and Social Impact Bonds
- Social innovation in the criminal justice system

Statistical Data

In accordance with the Statistics and Registration Service Act 2007, statistics based on police recorded crime data have been assessed against the Code of Practice for Official Statistics and found not to meet the required standard for designation as National Statistics. The full assessment report can be found on the UK Statistics Authority website. Data from the Crime Survey for England and Wales continue to be badged as National Statistics.

Mapping national, regional and local crime trends of which this briefing is an output

This Local Authority profile contains trend data from a range of sources. The profile contains data on Crime, the Labour Market (inc. Job Seekers Allowance), Deprivation and Demographics. This profile will be developed over time to help explain the relationship between Crime and the Economy.

About the Policy Evaluation and Research Unit

The Policy Evaluation and Research Unit at Manchester Metropolitan University is a multi-disciplinary team of evaluators, economists, sociologists and criminologists. We specialise in evaluating policies, programmes and projects and advising national and local policy-makers on the development of evidence-informed policy. Currently, most of our work is in the areas of criminal justice, crime reduction, advice services, substance misuse and young people's services. We work for government departments including the Home Office and Ministry of Justice and local delivery organisations including police forces, probation services, local authorities and the voluntary sector.

Area Profile for Richmondshire

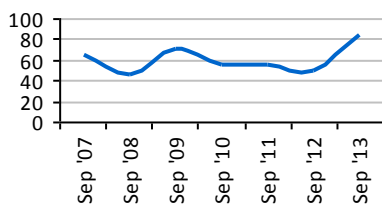

Crime Statistics and Trends

This section of the report examines the most recent police recorded crime data (Not designated as National Statistics) published by ONS. Data presented covers a rolling year up to the end of September 2012 and September 2013 respectively for each key crime group (which includes a re-classification of some elements of the police recorded crime data series and now excludes Fraud Offences). The table below includes annual change in the number and percentage of crimes. The rank is based upon the most recent Local Authority/Community Safety Partnership figure (out of 320 LAs/CSPs).

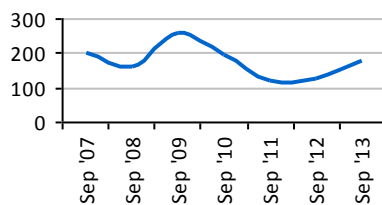

Offence	12 mths to		Change		Rates per 1000 pop.			Rank
	Sept-12	Sept-13	n	%	LA	Region	England	
Violence with injury	178	179	1	0.6	3.4	5.6	5.5	238
Violence without injury	98	108	10	10.2	2.1	3.9	5.2	300

Crime and Criminal Justice Futures: Local Authority Crime Profile

January 2014
(data to
September
2013)

Introduction

Applied Research at MMU is shaping the debate on criminal justice policy reform.

Through a series of research and consultancy projects the Policy Evaluation and Research Unit (PERU) at Manchester Metropolitan University is developing a new model of social justice and applying it to rethinking criminal justice policy and the reconfiguration of criminal justice services.

This work will be of interest to policy-makers, managers and professionals working in community safety and the criminal justice sector.

The programme has a number of distinct but related strands:

- Mapping national, regional and local crime trends
- Justice mapping
- Justice Reinvestment
- A new economic theory of criminal justice
- New commissioning models such as Payment by Results and Social Impact Bonds
- Social innovation in the criminal justice system

Statistical Data

In accordance with the Statistics and Registration Service Act 2007, statistics based on police recorded crime data have been assessed against the Code of Practice for Official Statistics and found not to meet the required standard for designation as National Statistics. The full assessment report can be found on the UK Statistics Authority website. Data from the Crime Survey for England and Wales continue to be badged as National Statistics.

Mapping national, regional and local crime trends of which this briefing is an output

This Local Authority profile contains trend data from a range of sources. The profile contains data on Crime, the Labour Market (inc. Job Seekers Allowance), Deprivation and Demographics. This profile will be developed over time to help explain the relationship between Crime and the Economy.

About the Policy Evaluation and Research Unit

The Policy Evaluation and Research Unit at Manchester Metropolitan University is a multi-disciplinary team of evaluators, economists, sociologists and criminologists. We specialise in evaluating policies, programmes and projects and advising national and local policy-makers on the development of evidence-informed policy. Currently, most of our work is in the areas of criminal justice, crime reduction, advice services, substance misuse and young people's services. We work for government departments including the Home Office and Ministry of Justice and local delivery organisations including police forces, probation services, local authorities and the voluntary sector.

Area Profile for Selby

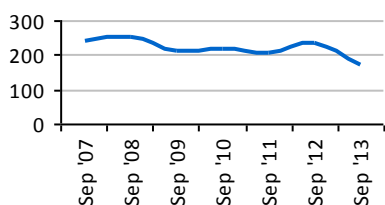

Crime Statistics and Trends

This section of the report examines the most recent police recorded crime data (Not designated as National Statistics) published by ONS. Data presented covers a rolling year up to the end of September 2012 and September 2013 respectively for each key crime group (which includes a re-classification of some elements of the police recorded crime data series and now excludes Fraud Offences). The table below includes annual change in the number and percentage of crimes. The rank is based upon the most recent Local Authority/Community Safety Partnership figure (out of 320 LAs/CSPs).

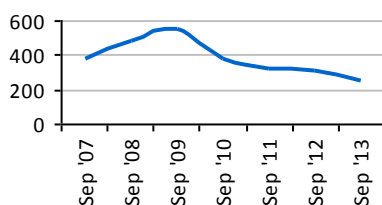

Offence	12 mths to		Change		Rates per 1000 pop.			Rank
	Sept-12	Sept-13	n	%	LA	Region	England	
Violence with injury	351	335	-16	-4.6	4.0	5.6	5.5	206
Violence without injury	240	258	18	7.5	3.1	3.9	5.2	255
Sexual offences	57	65	8	14.0	0.8	1.1	1.1	217
Robbery	5	10	5	100.0	0.1	0.7	1.1	280
Domestic burglary	239	172	-67	-28.0	5.0	12.0	9.7	220
Non-domestic burglary	317	259	-58	-18.3	3.1	5.9	4.1	237
Vehicle offences	338	297	-41	-12.1	3.6	7.8	6.9	266
Theft from the person	28	34	6	21.4	0.4	1.5	1.9	196
Bicycle theft	64	83	19	29.7	1.0	1.4	1.7	181
Shoplifting	141	224	83	58.9	2.7	6.7	5.6	268
All other theft offences	594	501	-93	-15.7	6.0	10.3	9.3	258
Criminal damage and arson	529	512	-17	-3.2	6.1	11.0	9.1	270
Drug offences	277	240	-37	-13.4	2.9	2.8	3.5	141
Possession of weapons offences	19	30	11	57.9	0.4	0.3	0.4	109
Public order offences	156	111	-45	-28.8	1.3	2.0	2.2	225
Miscellaneous crimes against society	51	52	1	2.0	0.6	0.9	0.7	169
	3,406	3,183	-223	-6.5

Demographics and Deprivation

This section of the report examines demographic data from the Office for National Statistics (ONS) including Population and Ethnicity data, and Deprivation Data from Department for Communities and Local Government (DCLG).

Population (2012 mid-year estimate)

The table below illustrates total population, Working Aged (16-64) population and Young People (18-24) population. The population pyramid to the right illustrates male and female population by quinary age groups.

Population Age Group	Numbers
Aged 16 - 64	53,800
Aged 18 - 24	6,300
Total	84,100

Ethnicity (2011 Census)

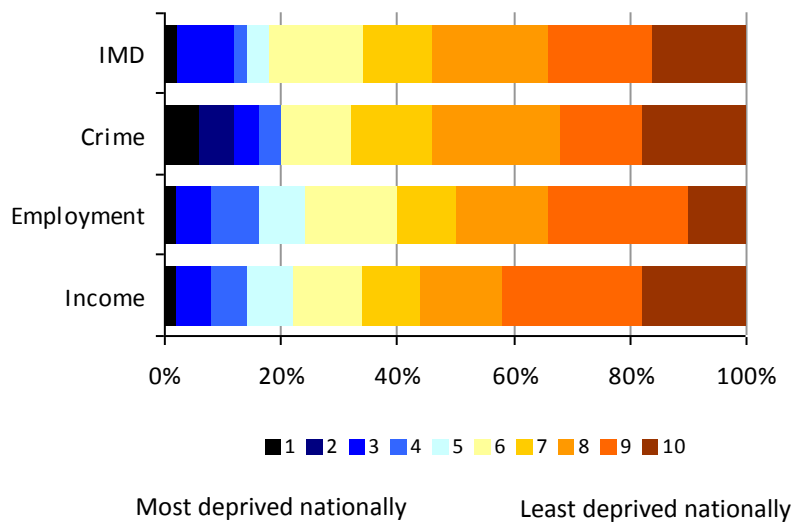

The table below shows Ethnicity data for key ethnic groups, including the numbers of people for each group and the proportion of total population, expressed as a percentage.

Ethnicity Group	Numbers ('000)	Percent
Total	83.4	100.0
White	79.7	95.5
White Irish	0.3	0.4
White Other	2.1	2.5
Mixed	0.6	0.8
Asian	0.5	0.6
Black	0.2	0.3
Other	0.0	0.0

Deprivation

The bar graph to the right demonstrates for overall Indices of Multiple Deprivation (IMD), and the Income, Employment and Crime Domains, the proportion of Lower Super Output Areas (LSOA) which fall into each decile (10%) nationally.

Labour Market Trends

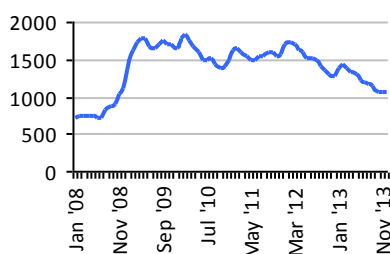

This section of the report examines the most recent Labour Market data from DWP (accessed via NOMIS) by Local Authority. Data presented compares December 2012 and December 2013 for the number of Job Seekers Allowance (JSA) claimants, the numbers claiming JSA aged 18-24 (a measure of Youth unemployment) and the numbers claiming JSA for over 6 months (a measure of long term unemployment) and the numbers claiming JSA for over 12 months. The table below illustrates the annual change in the number and percentage of claimants, the rate per 100 people (working aged) and compares the percentage point change. The rank is based upon the most recent Local Authority Rate/Community Safety Partnership figure (out of 320 LAs/CSPs).

Change

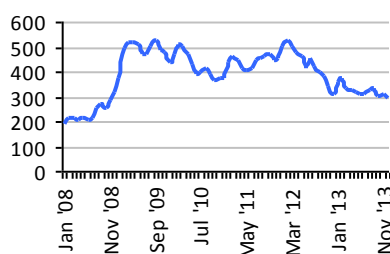

Job Seekers Allowance Type	Dec12	Dec13	n	%	Dec 12 Rate	Dec13 Rate	PP* Change	Rank
JSA	1,268	1,060	-208	-19.6	2.4	2.0	-0.4	183
Long Term JSA (Over 12 mths)	340	240	-100	-41.7	0.6	0.4	-0.2	202
Long Term JSA (Over 6 mths)	500	360	-140	-38.9	0.9	0.7	-0.3	205
Youth JSA (18-24)	315	300	-15	-5	5.0	4.8	-0.2	121

*PP = Percentage Point Change

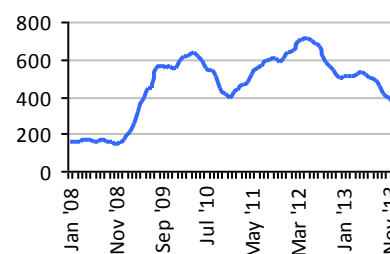

JSA

JSA - under 24 years

JSA - over 6 mths
